**Foreword** ..... 5
**Preface** ..... 15
**Chapter 1 Foundations of Competency-Based Education** ..... 19
*Lawrence S. Wright*
*University of Wisconsin — Stout*
*Menomonie, Wisconsin*
**Chapter 2 Affective Teacher Education in a Competency/Performance Based Program** ..... 51
*John Kampsnider*
*Florida International University*
*Miami, Florida*
**Chapter 3 A State Looks at Competency/Performance-Based Teacher Education** ..... 85
*Vincent C. Gazzetta*
*New York State Education Department*
*Albany, New York*
**Chapter 4 The Status of Competency/Performance-Based Industrial Arts Teacher Education** ..... 97
*Stanley E. Brooks*
*State University College*
*Buffalo, New York*
*Jack C. Brueckman, Jr.*
*State University College*
*Buffalo, New York*
**Chapter 5 Florida International University: A Case Study** ..... 115
*A. Dean Hauenstein*
*Florida International University*
*Miami, Florida*
**Chapter 6 Engineering Systems Analysis: Applications to Competency-Based Teacher Education** ..... 147
*John D. Bies*
*Wayne State University*
*Detroit, Michigan*
**Chapter 7 Implementing a Pre-Service C/PBTE Program in Industrial Arts Teacher Education** ..... 185
*Franzie L. Loepp*
*Illinois State University*
*Normal, Illinois*

**Chapter 8 Accountability within Competency/ Performance-Based Teacher Education Programs for In-Service Teachers** ..... **207**
*David L. Jelden*
*University of Northern Colorado*
*Greeley, Colorado*

**Chapter 9 Evaluation of Competency** ..... **229**
*Richard J. McCowan*
*State University College*
*Buffalo, New York*
*M. Duane Mongerson*
*State University College*
*Buffalo, New York*

**Chapter 10 And Now to Begin Work . . .** ..... **263**
*Stanley E. Brooks*
*State University College*
*Buffalo, New York*
*Jack C. Brueckman*
*State University College*
*Buffalo, New York*

**Appendix A Florida-International University CBTE Sample Handbook** ..... **270**
*A. Dean Hauenstein*
*Florida International University*
*Miami, Florida*

**Index** ..... **301**

# Index

Accountability —
  advantage of CBTE, 188
  deterrents to, 212-217
  educational, 208
  implementing, 218-220
  in pre-service C/PBTE, 207-226
  *vs.* professional judgment, 63-65
Accreditation, 87
Achievement —
  and C/PBTE measurement, 221
  in PBTE programs, 42
  and test questions, 245-249
Achievement testing, 24-25
*Achieving the Potential of Performance-Based Teacher Education: Recommendations*, 41-44
Administrators, and educational evaluation, 237
Affective competencies, 54-57
  developing, 65-67
  evaluation of, 73-75
  instructional techniques for, 76-78
  pupil-centered, 67
  teacher-centered, 69
Affective learning objectives, *vs.* cognitive, 59-63
Affective objectives, developing, 71-73
Affective teacher education, 51-83
Agencies, for CBTE development, 265-268
*Allen, Charles R.*, 23
Alternate choice questions, 247
*American Association of Colleges for Teacher Education (AACTE)*, 39, 41, 267
Analysis —
  and curriculum development, 24
  engineering systems, 147-183
  of human behavior, 28-31
  of human performance, 21-22
  job, 23
  management information system, 168
  task, 22
Approach behaviors, 71
Assessment —
  techniques in evaluation, 240-245
  in CBTE program, 140-142
  and C/PBTE accreditation, 93
Attitude, and C/PBTE adoption, 220
Autonomy, as accountability deterrent, 214-215
Avoidance behaviors, 71
Awareness —
  as affective skill, 65
  phase of learning, 76, 77, 80

Bachelor's degree, industrial arts and CBTE, 125, 126-130
*Becker, Samuel L.*, 56
Behavior —
  analysis of human, 28-31
  interpersonal and intrapersonal, 69
  objectives, 232-234
  as observational instrument, 244-245
  modes of, 71
  and training psychology, 25-27
Behavior management, as affective competency, 68

Behavioral learning, and C/PBTE, 57
Behavioral objectives, 34
and competency, 45-46
Behavioral self-definition, 69
Behavioral technology, and competency-based education, 53
Behaviorism, *vs.* humanism, 59-63, 76
*Bies, John D.*, 146
Binary function, of competency, 45
*Boyer, E. G.*, 240
*Brooks, Stanley E.*, 5, 96, 262
*Brueckman, Jack C., Jr.*, 5, 96, 262
Budget, and CBTE model, 160-162

*Cagné, Robert M.*, 28-31
Certification —
and CBTE, 125-126
state requirements, 86-87
*Charters, W. W.*, 24
Check lists, as educational assessment, 240
Cognitive domain, Sputnik and, 52
Cognitive learning objectives, *vs.* affective, 59-63
Cognitive mapping, 156
Competence —
*vs.* competency, 40-41
evaluation of, 229-261
testing for, 34-35
Competencies —
affective, 54-57
and CBTE model, 162-163
developing affective, 65-67
of educational evaluation, 235-240
evaluation of affective, 73-75
identifying for C/PBTE adoption, 220
for industrial arts degrees, 125-134
instructional techniques for affective, 76-78
pupil-centered affective, 67
teacher-centered affective, 69
for teaching, 200-202
Competency —
*vs.* competence, 40-41
*vs.* performance, 39-40
Competency-Based Education (CBE) —
centers for, 266
and cybernetic psychology, 27
defined, 35, 37
factors in development, 31-32
foundations of, 19-49
humanism in, 51-76
issues listed, 46-47
philosophical base of, 32-35
problems of, 47-48
as a system, 37
*Competency-Based Industrial Arts Teacher Education*, 97
Competency-Based Teacher Education (CBTE), 5
advantages and disadvantages of, 188-191
agency involvement (table), 108, 109
assessment techniques, 240-245
assistance in development, 265-268
attendance at meetings (table), 107
characteristics of FIU, 117-118
commitment to, 218
comparing to existing program, 203-204
consideration of, 188-195
describing model, 199-205
development stage survey, 104
development of systems model for, 153-170
elements of implementation, 225
evaluation in a program, 140-142
focus of implementation (table), 102, 103
implementation problems, 142-144
inputs-processes-output system, 120-122

management of programs, 123-124
model for implementing, 187
monitoring systems, 252-255
and New York recommendations, 265
operational programs listing, 105, 106
operation programs (table), 110
opinionnaire, 193-194
orientation timetable, 192
performance criteria, 122-123
and performance objectives, 232-234
and printed materials, 111
publications on, 268
questions for implementation, 218-219
recent developments in, 264
reporting system at FIU, 118
sample handbook for, 271-300
staff commitment to (table), 102
state positions on, 85-95
status study of, 98, 100
steps for implementation, 222-225
and systems models, 147-183
teaching a program, 137-139
terminology at FIU, 118
*vs.* traditional programs, 117-118
Vocational and Applied Arts Education model, 173-182
Competency Development and Implementation Model, 135
Competency/Performance-Based Teacher Education (C/PBTE) —
accountability in pre-service, 207-226
adoption requirements, 220-222
affective, 51-83
assessment techniques, 240-245
assistance in development, 265-268
and certification, 85-95
elements of implementation, 225
*vs.* humanism, 57
implementing a pre-service program, 185-205
and performance objectives, 232-234
status of, 97-113
steps to implementation, 222-225
Completion questions, 249
Communication, as affective competency, 67-68
Communication function, of competency, 45
Community members, and educational evaluation, 239
Confluent education, 61
Constraints, describing curriculum, 198-199
Consultants, for educational evaluation, 237
Content, in education, 21
Course conceptualization, sample, 197-198
*Cox, R. C.*, 253
*Craig, S. B., Jr.*, 46
Criteria, determining for C/PBTE adoption, 220
Criterion-referenced testing, and CBTE model, 164-165
Criterion-referenced tests, 243
Criterion standards, and competency, 37
*Crocker, W. A.*, 63
Cumulative scales, 242
Curriculum —
analysis and, 24
describing prior to CBTE, 195-198
goal-oriented change, 186
process of planning, 231
Status Report, in VAE model, 180
Cybernetic psychology, and education, 27-28

DUSO, and affective education, 55
Data, and successful CBTE model, 154
Delineation, or responsibility, 209

Delivery systems —
in CBTE model, 156, 166-167
handbook as, 137, 139
Derived need, education as, 20-21
Deterrents, to accountability, 212-217
Diagnostic/prescriptive evaluation model, 255
Discrepancy Evaluation Model, 234
Domain —
affective and teacher education, 51-83
and competency, 36
*Drummond, William H.*, 42-44
Dynamic systems model, 150

Economy, as accountability deterrent, 215-217
Education —
accountability in, 208
evaluation of competence, 229-261
foundations of competency-based, 19-49
goals of, 28
origin and purpose of, 20-21
Educational engineering, 208
Educational philosophy, 19-20
Educational technology, and C/PBTE adoption, 221
*Elam, Stanley*, 33, 44, 89
Enabling objectives (EO), 164, 233
Engineering systems analysis, of CBTE, 147-183
Environmental model, systems, 148
Essay questions, 245-246
Evaluation —
in affective education, 63-65
and assessment techniques, 240-245
of competence, 229-261
and CBTE model, 164-165
definition of, 230
experimental design, 250-252
formative, 232
major purpose of, 230-232
procedures of, 235
and rating instruments, 240-245
and test questions, 245-249
Evaluation systems, in training psychology, 26
Experiential learning, 61-63
Experimental design, and evaluation, 250-252
Experimentalism, 32-34
Extrinsic motivation, *vs.* intrinsic, 57-59

Faculty —
attitudes and CBTE, 171-173
describing, prior to CBTE, 198
orienting to CBTE, 191-195
Feedback —
and CBTE model, 156-157
giving and receiving affective, 70
student evaluation, 239
Field experiences, in CBTE program, 136
Field Oriented Competencies in an Urban Setting (FOCUS), 176
Financing, of C/PBTE by states, 93
*Flanders, N. A.*, 244
Florida, and CBTE, 91
Florida International University —
as CBTE case study, 115-144
sample CBTE handbook, 271-300
Formative evaluation, 232
Foundations, of competency-based education, 19-49
*Frankel, David*, 170
Functions, of competency, 45-46

*Gaines, Edythe J.*, 212
*Gazzetta, Vincent C.*, 84
Generative function, and competency, 46

Goals —
and C/PBTE model, 221-222
sample CBTE handbook, 271-300
specifying CBTE model, 162
Grades, in content education, 21
Grading system, in CBTE program, 140-141, 221
Group process skills, affective competency, 68
*Guba, E. G.*, 252
Guttman scales, sample, 242-243

*Hamilton, P. D.*, 44
Handbook, sample CBTE, 271-300
Handbooks, format for CBTE, 119
*Hauenstein, A. Dean*, 114
*Hefferman-Cabrera, Patricia*, 53
*Hencley, Stephen P.*, 215-216
*Houston, W. R.*, 41
Human performance, analysis of, 21-22, 28-31
Humanism —
advantage of CBTE, 189
*vs.* behaviorism, 59-63
in competency-based education, 51-76
*vs.* C/PBTE, 57
*Husek, T. R.*, 243

Ideology, as deterrent to accountability, 213
Implementation —
elements of C/PBTE, 225
phase for learning, 77, 78, 80
steps for C/PBTE, 222-225
Indiana, and CBTE, 91
Individualization —
advantage of CBTE, 189
in C/PBTE adoption, 221
Individually Prescribed Instruction (IPI), 253-254
Industrial arts —
and commitment to CBTE program, 153-157
and CBTE, 5
and CBTE at Florida International University, 115-144
and evaluation competencies, 235-240
implementing a pre-service C/PBTE program in, 185-205
non-interactive and interactive skills, 127, 132
sample CBTE handbook, 271-300
and status of C/PBTE, 97-113
Industry, and education progress, 22-23
Innovation, and change diffusion, 170-173
Input-process-output model, 37-38
Input operations model, 150
Institutions, and CBTE implementation, 100-112
Instruction —
for affective competencies, 76-78
analysis to improve, 23
and CBTE model, 157
individualizing, 32
in industrial arts sample handbook, 271-300
Instructional process, 139
Instructional subsystem, of CBTE model, 162-167
Instructional system, of the VAE model, 174-177
Instruments, observational, 244-245
Interaction analysis, 244-245
Interactive skills, industrial arts, 127
Interpersonal behaviors, 69
Intrapersonal behaviors, 69
Intrinsic motivation, *vs.* extrinsic, 57-58
Investigative function, and competency, 45, 46
*Isaac, S.*, 241
Issues, on competency-based education, 46-47

*Jelden, David L.*, 206

Job analysis, and education progress, 23
*Johnson, C. E.*, 44
*Joyce, B. R.*, 25-27, 28, 37

*Kampsnider, John J.*, 50
*Kauchak, D. P.*, 37
*Kidd, R. V.*, 35, 36
Kindle, and affective education, 55
*Klingstedt, J. L.*, 32, 37

Learner, goals of C/PBTE, 221
Learning, phases of, 76, 80
Legal deterrents, to accountability, 214-215
Lesson plans, sample handbook, 271-300
Likert scale, sample, 241
*Lindvall, C. M.*, 253
*Loepp, Franzie L.*, 184

Magic Circle, and affective education, 55
Management Information System (MIS), 167-170
  and progression of data, 181
  in VAE model, 177-178
Management, scientific, 22
Master's degree, industrial arts and CBTE, 128-133
Mastery learning, 34
Matching questions, 249
*McCowan, Richard J.*, 228
*Michael, W. B.*, 241
*Mirrors for Behavior: An Anthology of Classroom Observation Instruments*, 240
Military, and education progress, 22-23, 25
Model —
  considering CBTE, 188-195
  describing a CBTE, 199-204
  input-process-output, 37-38
  principles of systems, 148-153
  subsystems and systems, 38
Modeling —
  and affective competencies, 65, 70
  phase of learning, 76, 77, 80
Modules —
  in instruction plans, 253
  in sample CBTE handbook, 271-300
Money, as accountability deterrent, 217
*Mongerson, M. Duane*, 228
Monitor, performance, 255-258
Monitoring systems, 252-255
Motivation —
  advantage of CBTE, 190
  extrinsic *vs.* intrinsic, 57-59
Multiple choice questions, 248-249
*Multi-States Consortium on Performance-Based Teacher Education*, 266

*Natalico, Luiz F. S.*, 35, 36
*National Center for the Improvement of Educational Systems/Teacher Corps*, 267
*National Commission on Performance-Based Education*, 266
*National Competency-Based Education Centers*, 266
Need, education as derived, 20-21
Neutral behaviors, 71
New York —
  and CBTE, 91
  and CBTE recommendations, 265
New York State Education Department, 15
Non-interactive skills, in industrial arts, 127
Normative evaluation, and CBTE model, 165
Norm-referenced tests, 243-244

Objectives —
  affective learning, 59-63
  and competency, 41
  of competency, 36

and CBTE model, 164
defining educational, 29-31
developing affective, 71-73
performance, 232-234
Observational instruments, 244-245
Orientation, timetable to CBTE, 192
Output operations model, 152

Parity, and CBTE model, 160-162
Peer Counseling, and affective education, 55
Peer groups, and educational evaluation, 238
Pennsylvania, and CBTE, 92
Performance —
*vs.* competency, 39-40
monitoring, 252-255
Performance-based education, and AACTE reports, 41-44
Performance objectives, 232-234
Personnel —
commitment to CBTE, 153
orienting to CBTE, 191-195
Personalization, advantage of CBTE, 189
Philosophy —
base of competency-based education, 32-35
as deterrent to accountability, 213
educational, 19-20
of school purpose, 211
Political deterrents, to accountability, 214-215
*Popham, W. J.*, 243
Pre-service teachers —
and competencies, 126-128
and industrial arts C/PBTE, 185-205
and C/PBTE, 207-226
Process evaluation, and CBTE model, 165
Production efficiency, and education, 22
Programmed learning, and content analysis, 31
Professional judgment, *vs.* accountability, 63-65
Psychology —
cybernetic, 27-28
training, 25-27
Public education, as institution, 21
Public schools —
curriculum analysis, 24
purpose for, 211
Publications, competency-based teacher education, 268
Pupil-centered affective competencies, 67

Questions, types of test, 245-249

Rating scales, 240-245
Research, need for accountability, 215-216
Resources —
for CBTE materials, 268
using in CBTE model, 158-159
Responsibility, to children, 211
delineation, 209
*Roberts, Churchill L.*, 56
